

Our success is built on offering innovative, unique products for the consumer who aspires to live a healthier lifestyle and, in parallel, responsibly contribute to society's well-being. Our company motto, "Respect the Divine and Love People," guides us to work fairly and honorably, respecting people, our work, our Company, and our global community.

As one of the first companies to develop and market the zirconia ceramic knife in 1984, Kyocera has since generated 43 patents for its ceramic knife technology, making it the leading innovator for ceramic knives and kitchen tools in the cutlery industry. The Company's first ceramic knife debuted successfully at the International Traditional Craft Fair in Kyoto.

The Company has a longstanding history of award-winning environmental programs. It is listed on The Wall Street Journal's latest "The World's 100 Most Sustainably Managed Companies" list and strives to develop products that help reduce its collective carbon footprint.

KYOTO CERAMICS

SUSTAINABLE INNOVATION

Kyocera was founded in 1959 in Kyoto, Japan as a small suburban workshop and today, is a highly diversified global enterprise with over 83,000 employees .

Developing innovative ceramic tools for the home has been important to Kyocera since the division's inception in 1984. The Company's drive to make high-quality products for the betterment of society reflects the philosophy of its founder, Dr. Kazuo Inamori, and his lifelong belief that "people have no higher calling than to strive for the greater good of humankind and society."

All of Kyocera's ceramic blades are manufactured in a Sendai, Japan factory that uses solar power to offset energy consumption and reduce carbon emissions. Kyocera's commitment to innovation has resulted in more than 24,000 active patents and pending applications worldwide that include more than 2,000 active patents and pending applications in energy-related technologies such as high-quality solar, power storage, fuel cells, new AI-powered technology solutions for Virtual Power Plants, and efficient renewable energy management.

New in 2023, Kyocera will introduce globally, a fresh new, colorful no-plastic retail package that emphasizes whole-food cooking and the key benefits of using ceramic knives for easy meal preparation.

inlay made from recyclable carton instead of plastic blister

ADVANCED CERAMICS BENEFITS

Kyocera's high technology and quality standards produce ceramic cutlery with a timeless aesthetic and cutting precision. The unique properties of ceramic encourage healthy cooking. The beveled cutting edge blade offers precise cuts, the material's extreme hardness ensures long-lasting edge retention, and they are amazingly light, flexible, and corrosion-free; ideal tools for whole food meal prep.

Fácil de manejar
Manipulation facile

HEALTHY COOKING
with ceramics

CARE AND USE

To ensure many years of pleasure from Kyocera high-quality knives, please follow these guidelines:

- Ceramic knives are easy to clean and are best washed by hand.
- Extreme temperatures can warp or damage kitchen knife handles.
- Ensure that the blades are protected when stored to avoid damage.
- Use wood-based cutting boards.
- Do not use ceramic knives to chop, debone, or cut frozen food.
- Do not twist or torque the knife blade.
- Do not let the blade fall on a hard surface.
- For safety, store all kitchen knives in a knife block or sheaths.

For further details visit:

<https://cutlery.kyocera.com/care-and-use-guidelines>

RESHARPENING

Kyocera ceramic knives retain their exceptional sharpness for an extremely long time when used properly. Should you see microchips on the cutting edge over time, the knives can be easily resharpened with special diamond grinding wheels. Kyocera offers a manual or electric diamond wheel sharpener for at-home maintenance or take advantage of our authorized Kyocera resharpening service to get an expert result.

PROFESSIONAL

Premier Elite Series

Inspired by Japanese Zen Gardens Kyocera's Premier Elite Series features our finest hot-isostatic pressed (HIP) ceramic blade for superior strength and sharpness. Featuring a distinctive etched design on the blade reminiscent of a traditional Japanese Zen sand garden. The flat-sided oval pakkawood handle design is inspired by the shape of a Koban, an old Japanese gold coin and is joined to the blade with stainless steel rivets and a bolster.

Inspirado por los Jardines Zen La serie "Premier Elite" de Kyocera presenta nuestra mejor cuchilla de cerámica prensada isostáticamente en caliente para mayor resistencia y filo. La cuchilla presenta un grabado distintivo que evoca los jardines tradicionales Zen de Japón. El diseño ovalado con costados planos del mango en madera de pakka está inspirado en la forma de un Koban, antigua moneda de oro japonesa, se une a la cuchilla con remaches de acero inoxidable y un refuerzo.

Inspirée des Jardins Zen Japonais La série "Premier Elite" de Kyocera présente une lame en céramique réalisée par formage isostatique à chaud pour une résistance et une netteté supérieures. Doté d'un motif distinctif gravé sur la lame qui rappelle les jardins de sable zen traditionnels. Le manche ovale à côtés plats en bois de pakka est inspiré de la forme d'un koban, ancienne pièce de monnaie en or japonaise. Le couteau est relié à la lame par des rivets en acier inoxydable et un renfort.

MODERN

INNOVATIONblack®

Patented Technology

Features a proprietary zirconia fusion that KYOCERA inventors developed for optimal cutting performance while enhancing the durability 2x more than the original blades. An extremely sharp, ultra long-lasting edge combined with an ergonomic uniquely designed soft-grip handle, this tool will give any cook or chef precise cutting control. A well-balanced, lightweight truly advanced ceramic kitchen knife that will never rust or react to acidic foods for pure and simple meal prep.

Tecnología Patentada

La tecnología japonesa presenta una fusión de circonio patentada que los inventores de KYOCERA desarrollaron para tener un rendimiento de corte óptimo al tiempo que aumenta su durabilidad 2 veces más que las cuchillas originales. Un borde extremadamente afilado y ultra duradero combinado con un mango suave, de agarre ergonómico y de diseño único, esta herramienta le dará a cualquier cocinero o chef un control de corte preciso. Un cuchillo de cocina de cerámica verdaderamente avanzado, liviano y bien equilibrado que nunca se oxidará ni reaccionará a los alimentos ácidos. Ideal para preparar comidas sanas.

Technologie Brevetée

La technologie japonaise offre une fusion brevetée de zirconium que les inventeurs de KYOCERA ont développée pour obtenir des performances de coupe optimales tout en augmentant la durabilité 2x plus que les lames originales. Une lame extrêmement affûtée et très durable. Associée à une poignée à la conception ergonomique, cet outil donnera à tout cuisinier ou chef une maîtrise de la coupe précise. Un couteau de cuisine en céramique vraiment bien équilibré et léger qui ne rouillera jamais et ne réagira jamais aux aliments acides pour une préparation de repas pure et simple.

PREP BASICS

Revolution Series

Essentials

A great introduction to ceramic knives, this series provide the essential cutting tools for meal preparation. The simple, rounded handle makes this knife comfortable and easy to hold and is available in several colors to match any kitchen. With this series, our basic ceramic blade is available in black or white and in several shapes and sizes for all types of cutting tasks or needs.

Esenciales

Una excelente introducción a los cuchillos de cerámica, esta serie provee lo necesario en utensilios de corte para la preparación de cualquier comida. El mango simple, de forma redonda hace de este cuchillo un utensilio cómodo y fácil de utilizar. Está disponible en diferentes colores para combinar con cualquier cocina. Dentro de esta serie, la cuchilla básica de cerámica está disponible en negro o blanco y en diferentes formas y tamaños para cualquier necesidad y tarea de corte.

L'essentiel

Une excellente introduction aux couteaux en céramique, il est l'ustensile essentiel qu'on devrait trouver dans toutes les cuisines. Grâce au design rond de son manche, simple et ergonomique, il est facile à utiliser. Dans cette série, la lame en céramique est disponible en noir ou blanc et avec des différents formes et tailles pour s'adapter aux besoins de coupage. Les manches de couleurs différentes se marient parfaitement à la blancheur des lames en céramique.
