FALL / WINTER 2022

Our Story

The original Kilner® Jar, first invented by John Kilner and Co. in 1842 in England, is as much-loved and successful now as it was over 180 years ago. Its long-lasting popularity is owed to its unique pressure seal, iconic design and overall quality. Put simply, households all over the world trust it to successfully can their fruit and vegetables. In the 1900s, Kilner® presented its innovation as 'the original and the best, all other brands are substitutes', a claim which remains as relevant today, and is a testament to its impressive heritage.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for its health benefits, has catapulted the Kilner® Jar into the limelight in recent years. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

From New York to Tokyo, Paris to Oslo, consumers globally love using Kilner®. As a result Kilner® Jars can be found in world-famous department stores and small independent shops around the world.

Keep checking our social media channels and Kilner® website for lots of inspiring activities from mouth-watering vintage recipes to collaborations with bloggers and other influencers.

With our ethos of **REUSE, REFILL, REDUCE, RECYCLE**, Kilner® products are made to last and never for single use.

Our dedicated in-house design team have created a 'new look' Kilner® for 2022.

Introducing a fresh, trend-led color palette of serene blue with clear photography, and easy to read messaging.

Packaging in all forms is a vital part of portraying the Kilner® brand and helping its customers understand the products.

The Kilner® authentic brand logo will appear on every single Kilner® item to reassure the consumer that they are purchasing the genuine product.

Set of 2 Fermentation Jar Set

The Kilner® Fermentation Jar Set provides an easy way to create smaller batches of your own delicious fermented foods packed with vitamins, minerals and probiotic cultures.

The silicone valve in the Kilner® 34 US fl oz Canning Jar Lid will release the gas that builds up inside the jar during the fermentation process. However, the atmospheric air will not enter the jar, which usually causes food to spoil.

The glass weights sit on top of the vegetables to ensure that they are kept under the brine solution.

Perfect for creating live cultures of sauerkraut, kimchi, pickles and much more. Creating your own fermented foods is straight forward, just add your favorite vegetables, water and salt.

Silicone Fermentation Lid & Air Lock

The Kilner® Silicone Fermentation Lid & Air Lock is specially designed to be used with a 102 US fl oz Kilner® Jar. The lid is made from premium silicone and combines an air lock which in turn creates an anaerobic atmosphere which is perfect for fermenting foods.

The air lock allows gases to be released from the fermenting foods, but does not allow air to enter the jar. Air entering the jar from outside can cause the food to spoil.

Adding the fermentation lid to a Kilner® Jar means that you can make probiotic-rich foods at home. Delicious, nutritious fermented foods include sauerkraut, pickles and kimchi.

Social Media: We Are Storytellers

People love a human interest story, especially one they can interact with and relate to. By creating stories around our products we can access a younger generation, a generation which has become more conscious of the world around them. Climate change, social media, fashion, and healthy eating are all affecting the way young people live their lives.

Kilner® walks the line between the food-forward trends of the modern world and the traditional homestead aesthetic of the past. Jam-making and vegetable preserving meets kombucha and plant-based alternatives to dairy.

Kilner® Quality and Manufacturing

From the start of production to the finish, our experience enables us to select the best quality production techniques, as well as ensuring quality is to the highest standard possible.

Kilner® uses fully automated glass jars for a number of reasons:

- Even thickness of glass ensures there are no weak spots.
- Clarity of glass is clearer.
- We can design our own unique shapes and emboss glass with the Kilner® logo.

Kilner® uses high quality material for its products including:

- High quality stainless steel clips engineered to ensure the clip tension is 100% perfect, ensuring an ideal seal every time.
- Secure seal fitment.
- "A" grade soda lime glass, the safest option to store food and drink.

Quality is very important to Kilner®:

- All Kilner® Glass Jars are batch tested at source to AQL level 2.
- An additional quality check is also undertaken at our UK warehouse.

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids. Choose Kilner® as we only use quality food grade materials.

Kilner® have the knowledge and experience to develop and produce high-quality glass jars that will last longer and keep your ingredients safe.

Glass is good for your food. It is made from pure, natural elements, so harmful chemicals or toxins do not leak into your food. Glass is also BPA free which means it's the healthier choice for storing, preserving or even transporting your food and drink.

Glass preserves your food, keeping it fresh. It locks in taste and aromas, is easy to clean and doesn't take on residual odors, tastes or stains from food and drink. Not only is it healthier, but also more economical, reusable and recyclable – friendlier on both our pockets and the environment.
